

Dear friend,

As you know, the 9A (Residential Property Report) can sometimes take weeks to be processed by the Department of Building & Safety. In an effort, to expedite the closing of your next transaction, we can order the report for you online with our company credit card.

All you need to do, is provide the property address and have your Seller complete and sign the 2nd page of the report and send the original to us. We will order the report and provide it to you as soon as it is available.

Your 9a report will be ready to be provided to the Buyer upon opening of escrow.

The report is good for six (6) months, so go sell the property and let us take care of the rest

In an effort to reduce our carbon footprint, Escrow Palace will plant a new tree at the closing of each escrow.
